

Hello

What are the ingredients that make the best me?

Year 3 and 4

Main Learning focus - Time To Talk

The main focus in these sessions will be 'How we can manage our feelings'. The children will start off with identifying different feelings and emotions and then examine ways to manage diverse feelings in different scenarios. Giving children the tools to promote positivity in their lives.

English

In English we will be studying "Can I build another Me?" by Shinsuke Yoshitake, which is a funny book about how individual and unique we all are. We will be using the ideas and themes to create our own information sheet about us.

We will also be looking at the Year 3 and 4 spellings and starting our spelling investigations.

Mathematics

In maths, we will be learning about times tables and what they mean.

We will also be starting our unit on Place Value and investigating the importance of the position of each digit and how it makes a difference to the number value.

Within this topic we will be developing our quick recall of 2, 5 and 10 times tables for Year 3s and 3, 4, and 8 times tables for Year 4s.

Science

We will be learning about some of the different ways that scientific investigations can be carried out. We will be looking at patterns within the class and how we can show these in different ways.

Art

In Art we will begin by looking at self-portraits by famous artists before moving on to sketch our self-portraits. We will also be using our team work to carry out a whole class project to create our class birds.

Computing

In computing, we will be learning how to keep safe on line and how to use the Chromebooks in school.

We will be creating our computing portfolios and designing our own title pages.

Music

In music children will be learning a song all about empowering themselves. They will then start their journey learning to play the violin or cello reading notation and playing rhythmically as an ensemble.

RE

We will be exploring the importance of R.E., thinking about why we learn R.E. and how our attitudes, beliefs and experiences have an impact on the society we live in. We will also be sharing our knowledge about the six world religions.

PE

In games we will be developing our stamina and running techniques.

In PE, we will be looking jumping, rolls and applying these on different pieces of equipment.

French

This topic children will immerse themselves in the language by learning basic French classroom commands. Then they will learn a selection of the key phonemes to facilitate accurate and authentic pronunciation to support their language learning experience

History

In history we will be looking at chronology of us and linking this with key times periods in British history.
