

Gateway Primary School

Lifelong love of learning

Remote Learning

In order to access home learning, children will need their school Google login and the class code for their phases Google Classroom. Home learning will be a combination of instructions and activities with recorded and live sessions. All live sessions are recorded by the teacher and by joining a live session you are consenting to this recording.

During a live session, all pupils are expected to:

- Behaviour appropriately towards staff and other pupils.
- Remain in a communal area of their home, supervised by an adult.
- Follow the protocols shared by the teacher for when to use camera or microphone.
- Submit work through Google Classroom when completed.
- Raise any concerns with their teacher.

During a live session, all parents/carers are expected to:

- Support their child to contribute when appropriate.
- Behave appropriately towards staff and other pupils.

During a live session, all staff are expected to:

- Keep sessions to a reasonable length to allow families flexibility.
- Make instructions clear regarding the use of video and microphone.
- Conduct themselves with the same level of professionalism as in school.

We hope this guidance allows all of our school community to enjoy live sessions with their teacher and class friends during this lockdown period.
